MINIMAL PRICE MAXIMUM FEATURES

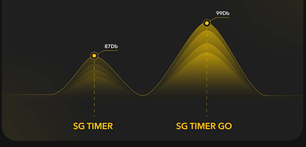
SG Timer GO packs the same smart sensor and recognition algorithms as its older brother.

And the Drills app opens up access to the most advanced feature set ever in a shot timer.

Bluetooth
Drills compatible

BEEP

Completely new buzzer in SG Timer GO is 240% louder.
Making training large groups outside super easy.



HAVE YOU DONE YOUR DRY FIRE?

The timer will catch the sound of your trigger pull.

Advanced firmware allows you to program and save custom dry fire sessions, and will give you a clear indication of your performance relative to the goal.

ECHO FILTERING
All shooting data is saved, not a single shot will remain unchecked

PAR
Plan your workouts, create and think over exercises in advance

VOLUME
Adjustable sound inside the timer, 5-100 adjuhtable volume

BUILT-IN MEMORY
Memorizes and displays statistics for 1,000,000 shots

HIGH SENSITIVITY
Fixates shots of any caliber, 1-100 adjustable sensitivity

SPY MODE
Allows you to sync SG Timer with any other shot timer

Top mounted display and simplified interface. So you can focus on your training.

SG Timer GO has just 2 buttons – Start / Stop and preset change.

Configure your presets in Drills app in advanced and switch between them on the timer – no time wasted at the range.

Quick release belt clip included in the box ensures sturdy mounting mechanism and easy access with a push of lever.

Mechanical quick release clip

ALL DAY EVERY DAY

- Up to 80 hrs of continous shooting on a single charge
- USB-C port

COMPATIBLE WITH DRILLS

10.000+ USERS
CHOICE OF SHOOTERS

Drills mobile app expands the functionality of SG Timer more than you can imagine.

Capture video with shot data, watch your progress, control the timer remotely, compete with and more. Absolutely for FREE.
